Subject: Leviathan Mine - Aspen Seep and CUD Provisional Flow Data - July
[170831 OSFlow 2017 Jan-Jul.csv](#)
[170831 CUDFlow 2017 Jan-Jul.csv](#)

Lynda,

As requested in the U.S. EPA's April 25, 2017 email, Atlantic Richfield is providing provisional flow data from the weirs located at the Aspen Seep (a.k.a – overburden seep or OS) and CUD. The attached data file covers the time period from 1/1/17 through 7/31/17. Atlantic Richfield is still reviewing flow data from August and anticipates providing those data by 9/30/17.

Please note that all flow data transmitted to the U.S. EPA this way are considered provisional and subject to further verification and possible revision. Data will be considered final when provided as part of the project database.

Should you have any questions or comments please contact Tony Brown at (657) 529-4537 or anthony.brown@bp.com.

Thanks,

Marc
